

## Summary:

《Campus Event Calendar》 is an innovative campus event management system designed to provide students, faculty, staff, and off-campus participants with a centralized platform through which users can not only view all campus events, but also RSVP events of interest. If the user is a student, then you can also view the course schedule of the day, as well as the homework assigned by the teacher, etc. If the user is a lecturer, you can arrange courses and assign homework on this platform.

## Objective:

- Enhance the dissemination of information to ensure that the majority of campus activities are managed and notified through the system.

Create a user-friendly interface that makes it easy for students and faculty to access and manage event information.

- Regularly survey user satisfaction to ensure system usage.
- Increase engagement at campus events by optimizing the RSVP process and pushing personalized event notifications.
